Innovation

Quality Schoolwear at Affordable Prices.

**Genuinely sustainable
processes & materials**

**2026
Catalogue**

A family-run business making a big impact

Innovation Schoolwear has grown and flourished over five decades, by remaining steadfast to our values of providing quality, reliability and a friendly, personal service.

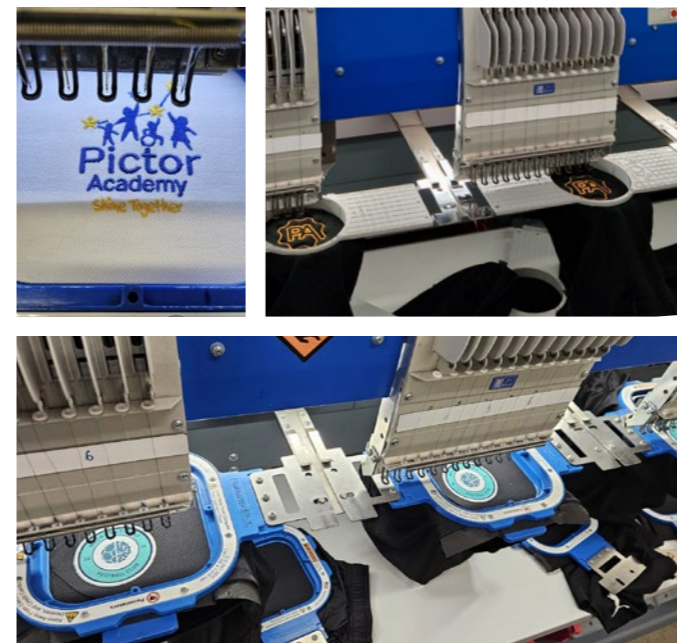

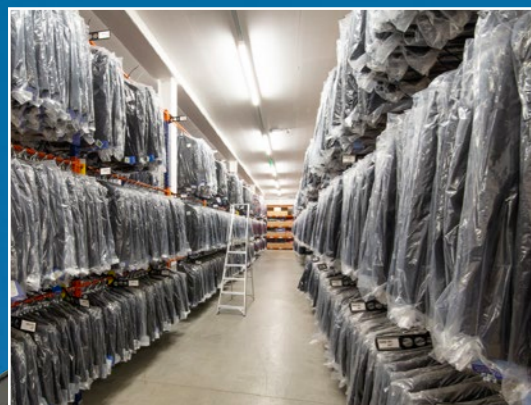

These values are underpinned by a commitment to change and grow with our customers; we are always looking to add new lines to our stock range, and additional colours based on customer feedback.

Likewise, we are regularly reviewing our prices to ensure that we continue to offer genuine value for money – without compromising on quality. Every school and every child is different, but we understand the need for garments and uniforms that can be both stylish and hard-wearing.

But some things remain the same... We remain committed to ensuring that all our lines are ethically made; maximising the use of sustainable materials and carefully vetting our manufacturing partners to confirm that fair wages and safe working conditions are maintained.

Our warehouse in the UK is always well stocked, allowing us to dispatch stock orders placed by 4pm for next day delivery* – backed up by reliable and responsive in-house embroidery and printing services. And you can always be assured of a welcoming, individual service from our dedicated support team.

* Except Isles, Northern and Southern Ireland, Scottish Highlands, Channel Islands and export orders

Embroidery

We offer a convenient and fuss-free professional personalisation service from our designated departments in-house, allowing us to embroider school crests and logos easily and quickly, all within a seven day turnaround*.

We have a great system in place to keep up with customer demand for quick set-up and turnaround of embroidered samples; be it a 5,000 or 25,000 stitch logo, we've got it covered.

Once a quote has been approved, it takes just 72 hours to produce a sample – with no set-up fees on school logos if an order of 50 pieces is placed. We do not have a minimum order quantity and we embroider third party goods too!

* Please allow for extra time during peak season.

Printing

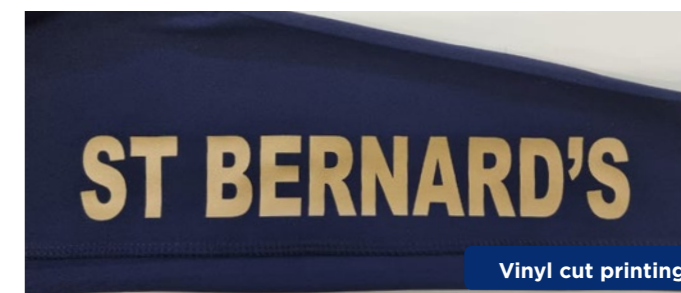

We offer three types of in-house printing on a seven day turnaround*:

Vinyl cut printing is generally best for personalising names/numbers or a simple design for a one-off order in low quantities to make it more cost effective.

Screen printing is the most popular and long-lasting method as ink is pushed through a mesh stencil onto textiles. Only one colour/screen can be applied at a time, and each screen comes at a cost. A screen is kept for 12 months so you don't need to keep paying a set-up charge if it is used within that period.

Digital printing is the process of printing your designs onto special transfer paper and then applying the transfer paper onto the garment using a commercial heat press. It enables full-colour images to be printed very quickly and is a great option for garments with two layers.

* Please allow for extra time during peak season.

Continuing 'our journey'...

...with **Integrity in Production
& Care** for the Earth.

For Our Future

Every year, we are using an increasing amount of recycled materials in our products, whilst continuing to reduce our carbon footprint and maintain the highest ethical standards in our factories and workplaces.

As a family-owned business, we're not answerable to shareholders - which means that our commitment to sustainability is real: we are constantly looking at innovative ways to improve our environmental credentials without compromising quality, to help build a better future for us all.

Look Out

for our eco-friendly icon throughout the catalogue for more of our eco-friendly products.
